ROSANNA
PRIMARY SCHOOL

Dear parent/guardian,

Rosanna Primary School is looking forward to another great year of teaching and learning and would like to advise you of Rosanna Primary School's voluntary financial contributions for 2026.

Schools provide students with free instruction to fulfil the standard Victorian curriculum and we want to assure you that all contributions are voluntary. Nevertheless, the ongoing support of our families ensures that our school can offer the best possible education and support for our students. We want to thank you for all you support, whether that's through fundraising or volunteering your time. This has made a huge difference to our school and the programs we can offer.

Within our local school community, this support has enabled the differentiation of the curriculum, the provision of essential learning resources, the renewal and enhancement of digital technology (including robotics) throughout the school, improve assessment practices to target student learning, develop the STEM Garden for practical exploration of mathematics and upgrade the landscaping across the school.

For further information on the Department's Parent Payments Policy please see a one-page overview attached.

ROSANNA
PRIMARY SCHOOL

Dear parent/guardian,

Rosanna Primary School is looking forward to another great year of teaching and learning and would like to advise you of Rosanna Primary School's voluntary financial contributions for 2026.

Schools provide students with free instruction to fulfil the standard Victorian curriculum and we want to assure you that all contributions are voluntary. Nevertheless, the ongoing support of our families ensures that our school can offer the best possible education and support for our students. We want to thank you for all you support, whether that's through fundraising or volunteering your time. This has made a huge difference to our school and the programs we can offer.

Within our local school community, this support has enabled the differentiation of the curriculum, the provision of essential learning resources, the renewal and enhancement of digital technology (including robotics) throughout the school, improve assessment practices to target student learning, develop the STEM Garden for practical exploration of mathematics and upgrade the landscaping across the school.

For further information on the Department's Parent Payments Policy please see a one-page overview attached.
